As a passionate Full-Stack Developer with a strong foundation in both front-end and back-end technologies, I am eager to contribute my skills to your dynamic team. My experience in building responsive web applications and optimizing user experiences aligns perfectly with your goals. I am excited about the opportunity to collaborate with innovative minds and drive impactful projects that enhance user engagement and satisfaction. Let's create something amazing together!

EDUCATION

Abhinav College of Arts, Commerce & Science (**Mumbai University**)

Maharashtra, India
[2022 – 2025]

- Diploma in Software programming (Pride Computers)
- Relevant Coursework in [**Relevant Subjects**: - Computer Networks, Web development, etc]

EXPERIENCE

1) **WEB TECHNEEQ**

[01/10/24 – 09/09/2025]

Developed and maintained full-stack web applications using HTML, CSS, JavaScript, and MERN Stack. Contributed to the **Kraheja website** by updating a blog with regular updates using the MERN stack.

Additionally, designed and developed the **Tadoba Jungle Bucketlist website** using HTML, CSS, and JavaScript to enhance user engagement and interface appeal. Gained hands-on experience in front-end design, RESTful APIs, and MongoDB integration.

- Developed scalable web applications, boosting user engagement by 30%.
- Implemented responsive designs, enhancing mobile user experience.

2) **R5 ADVERTISING**

[01/12/25 – PRESENT]

Worked on multiple real-world client projects including **Priyal Group, RW Sawant Developer, Pixstox, and SPPL**. Developed responsive websites and dynamic web features using HTML, CSS, JavaScript, PHP, and MySQL, while also contributing to **MERN stack and Next.js based applications**. Implemented admin panels for lead management, integrated third-party services such as **CCAvenue payment gateway and Shiprocket**, and developed interactive components like stock market heatmaps for real-time data visualization. Collaborated with designers and backend teams to deliver scalable, user-friendly business websites and web applications.

LIVE PROJECTS

1) NK REALTY WEBSITE

- Developed a full-stack real estate consultancy website for NK Realty Consultants, a MahaRERA-registered property advisory firm operating across Mumbai. Built dynamic property listing pages featuring residential and commercial projects across **Andheri, Borivali, Malad, and Dahisar** with pricing, configuration, and location details.
- Implemented a responsive multi-page layout with an animated hero banner, client testimonial carousel, business metric counters, and a lead generation enquiry form with backend submission handling. Integrated MahaRERA compliance information, a founder profile section, and a comprehensive FAQ module.
- Delivered a clean, mobile-optimized interface reflecting the brand's core values of trust and transparency. Tech responsibilities included frontend UI development, form handling, and deployment of a fully responsive website tailored for property buyers, investors, and corporate clients in Mumbai's competitive real estate market.
- **Programming Language:-** (HTML,CSS, JS) ,**FrameWork:-** Tailwind CSS, FontAwesome , **Library:-** Lenis (for Smooth Scroll)

2) VIDYATRADE WEBSITE

- Developed a modern, high-performance website for VidyaTrade using **React.js 19** and **Vite** as the build tool, ensuring fast development and optimized production builds. Implemented smooth UI animations and transitions using **Framer Motion**, and built an interactive image/content slider with **Swiper.js**.
- Designed a fully responsive interface using **Tailwind CSS v4**, ensuring seamless experience across all devices. Integrated **React Router DOM** for client-side multi-page navigation and **EmailJS** for contact/enquiry form submission without a backend server.
- Used **React CountUp** for animated statistic counters enhancing visual engagement. Managed component architecture, routing structure, and deployment pipeline end-to-end, delivering a polished, production-ready web application for the client's trading business.
- **Programming Language:-** React.js 19, Tailwind CSS v4, Vite, Framer Motion, React Router DOM, Swiper.js, EmailJS, React CountUp, React Icons

3) RW SAWANT DEVELOPER WEBSITE

- Built a comprehensive corporate website for RW Sawant Developer, a Mumbai-based real estate firm with 20+ years of experience delivering residential and commercial projects across Maharashtra.
- Developed a filterable project listing system allowing users to browse properties by type (Residential/Commercial) and status (Completed, Ready to Move, Under Construction). Implemented a multi-slide hero banner, interactive enquiry modal with dynamic phone input and preference selection, and dedicated collaboration pages for channel partners, vendors, and land acquisition. Integrated customer testimonial cards with YouTube video reviews and an FAQ section covering RERA compliance and home loan assistance.
- Ensured full mobile responsiveness and consistent branding throughout. The project demonstrated end-to-end full stack development including frontend design, dynamic filtering logic, form handling, and production deployment for a multi-award-winning real estate developer.
- **Programming Language:-** (HTML,CSS, JS) ,**FrameWork:-** Tailwind CSS, FontAwesome , **Library:-** Lenis (for Smooth Scroll)

4) N GANDHI ENTERPRISES WEBSITE

- Developed a professional and responsive corporate website for NG & Gandhi Enterprises to establish a strong digital presence. The platform presents company services, business information, and expertise in a clean and structured layout.
- Focused on intuitive navigation, consistent UI design, and responsive layouts to ensure accessibility across devices. Implemented modern styling and interactive elements to improve user engagement and overall experience.
- Optimized the website for performance and usability, ensuring fast load times and smooth interaction. Integrated contact and inquiry sections to enable seamless communication with customers. This project demonstrates the ability to build scalable and visually appealing business websites that enhance brand visibility and support business growth.
- **Programming Language:-** React.js 19, Tailwind CSS v4, Vite, Framer Motion, React Router DOM, Swiper.js, EmailJS, React CountUp, React Icons
